## Work

07.2023-current

**FRONTEND DEVELOPER**

DigiWay Media

- Designing and implementing advanced UI components using React.js, Material UI, and TypeScript.
- Collaborating with the back-end team to integrate the front-end application with systems and databases.
- Using HTML/CSS and ES6 to create visually appealing and user-friendly interfaces.
- Actively participating in the entire project lifecycle, from concept to deployment.
- Ensuring browser compatibility and minimizing compatibility issues by supporting various browsers and applying best practices.
- Testing and debugging applications to ensure their reliability.
- Utilizing JavaScript, including object model, event handling, and data structures, to develop efficient and scalable applications.

2020-2023

**INTERIOR DESIGNER**

Freelance

- Creating design concepts, selecting materials, and planning spatial layouts for interior design.
- Utilizing software such as 3Ds Max and AutoCAD to create realistic visualizations and detailed technical designs.
- Collaborating with clients to deliver personalized interior solutions tailored to their specific requirements.
